

HELIAS CATHOLIC

H I G H S C H O O L

BUILDING A COMMUNITY OF SAINTS AND SCHOLARS FOR CHRIST

January 6, 2023

In the 2023–24 school year, Helias Catholic will begin a phased process of providing a Chromebook laptop device to all students with the intention of providing equitable access to technology for our students, to continue to enhance dynamic classroom instruction, and to support a consistent learning environment for students and staff.

[This phased process](#) will begin with all 2023–24 freshman and sophomore students being assigned a Chromebook at the beginning of the school year.

Helias Catholic’s “bring-your-own-device” policy will continue to apply to junior and senior students in the 2023–24 school year.

Student-owned devices permissible for school use must have an external keyboard. Tablets may be used but must meet the minimum requirements listed below and be able to access Google Apps for Education. Please consult Helias Catholic’s device requirements document, detailed below, for guidelines on acceptable student devices for juniors and seniors in the 2023–24 school year.

Juniors and seniors will continue to have the opportunity to check out a school Chromebook.

Device Requirements

	Minimum	Recommended
Operating System	Windows 10 / ChromeOS / OSX / iOS	Windows 11
RAM	–	8GB
Device Storage	–	64GB
