

Helias Catholic High School **MATH PLACEMENT TEST**

Helias Catholic High School will administer a Math Placement Test on **Monday, February 13, 2023**, for students who intend to enroll as freshmen for the 2023–24 school year. This evaluation will be used to determine recommendations for students to enroll in freshman math courses appropriate to their abilities and needs.

The Math Placement Exam will be administered beginning at **8:00 a.m. February 13**. Students should arrive at Helias Catholic by 7:45 a.m. and enter at the main office to be directed to the Commons, where the test will be given. The test should take approximately 1-1.5 hours to complete. Families picking up students after the test should arrive by 9:30 a.m.

Incoming freshmen register for courses by submitting a completed Freshman Registration Form to the Helias Catholic Counseling Office. If there is a discrepancy between the math course a student registers for and the student's performance on the Math Placement Test, a Helias Catholic school counselor will contact the family to discuss recommendations.

Students who intend to enroll as freshmen at Helias Catholic for 2023–24 but who are unable to take the Math Placement Test at this scheduled time should contact the Helias Catholic Counseling Office by calling the school at 573-635-6139.
